

EntityManager::queryRange

```
graph LR; A[EntityManager::queryRange] --> B[Quadtree::query]; B --> B;
```

The diagram illustrates a function call. A grey rectangular box on the left contains the text 'EntityManager::queryRange'. A straight blue arrow points from the right side of this box to a white rectangular box on the right, which contains the text 'Quadtree::query'. Above the white box, a curved blue arrow starts from its top edge and points back to the same box, representing a self-call or a recursive operation.

Quadtree::query
